Journal of Conflict Management and Sustainable Development

Welcome to Volume 10 Issue 4 of the Journal of Conflict Management and Sustainable Development.

The Journal is committed to providing a platform for established and upcoming scholars to engage in intellectual debate on key and pertinent themes in Conflict Management and Sustainable Development.

Sustainable Development has been defined as development that meets the needs of both the present and future generations. The Journal is thus vital in the ongoing debate around the globe towards attaining inter and intra generational equity.

However, sustainable development cannot be realised in an environment marred with conflicts. The Journal further offers insight on key conflict management techniques and concerns with the aim of creating a conducive environment both in Kenya and across the globe for the attainment of the ideal of sustainable development.

The Journal is peer reviewed and refereed in order to adhere to the highest quality of academic standards and credibility of information. To achieve this aim, the Journal draws from the experience and expertise of highly qualified and competent internal and external reviewers.

This volume contains papers covering relevant and emerging issues on the themes of Conflict Management, Sustainable Development and related fields of knowledge. These topics are: *Safeguarding Human Health through Health in All Policies Approach to Sustainability; The Case for the Independence of Kenya's Directorate of Criminal Investigations (DCI): Lessons from International Best Practices; Governance at The Bottom of The Pyramid: Regulating Profit & Corporate Purpose in The Kenyan Bottom-Up Economic Model; Developing an Effective National Counter - Terrorism Strategy for Kenya: Lessons from Comparative Best Practices; Fostering Efficient Management of Community Land Conflicts in Kenya for Sustainable Development; The Role of the Board and The Corporate Secretary in Incorporating Environmental, Social and Governance Issues in an Organisation; Entrenching the Role of Communities in Achieving Sustainable Development; A collaborative approach to climate technologies for climate change mitigation and sustainable development; Renewable Energy Transition: Powering a Sustainable Future with Solar, Wind, Hydro, and Geothermal Solutions; A Clarion call for Action: Realising True Sustainable Development; A Review of Kenya's National Strategy to Counter Violent Extremism: The Case for Reform; and Climate Justice and Equity: Navigating the Unequal Impacts of Climate Change towards Equitable Solutions.*
